Language	original_language	Factor	Language the entry was first submitted in	en it	English Italian
Facilitators	facilitators	Factor	Does this method require a facilitator at some point during the process?		) No   Yes   Not employed to a not relevant
Face to Face or Online Interaction	facetoface online or both	Factor	Use of online or face to face interaction for the project or event	not_applicable facetoface online	Not applicable or not relevant Face-to-Face Online
				both	Both Inform (provide the public with balanced and objective
				inform	information to assist in understanding the problem, alternatives, opportunities, and/or solutions)
				consult	Consult (obtain feedback on analyses, alternatives, and/or decisions)
Public Spectrum	public_spectrum	Factor	Goal from the IAP2 Spectrum of Public Participation that the method best represents	involve	Involve (work directly with the public throughout the process to ensure that public concerns are understood & considered)
				collaborate	Collaborate (partner with the public in each aspect of the decision including the development of alternatives
				empower	& the identification of the preferred solution) Empower (place final decision-making in the hands of
				not	the public) Not applicable or not relevant
				open_to	Open to All Open to All with special effort to recruit some groups (e.g. community organizing to recruit low-income
Open to All or Limited to Some?	open_limited	Factor	Participation open to all or limited to a subset of the population	limited	earners) Limited to Only Some Groups or Individuals
				both	Mixed (i.e. some aspects are open to all and others are limited to some)
Method of recruitment	recruitment_method	Factor	Method used to recruit a limited subset of the population	high	High polarization
Level of Polarization This Method Can Handle	level_polarization	Factor	Level of political polarization this method can handle	polarized moderate low	Polarized Moderate polarization Low polarization
				not very_high	Not polarized Very high complexity
Level of Complexity This Method Can Handle	level_complexity	Factor	Level of complexity this method can handle	high moderate	High complexity Moderate complexity
				low very_low	Low complexity Very low complexity
				collaborative community	Collaborative approaches Community development, organizing and mobilization
				deliberative direct evaluation	Deliberative and dialogic process Direct democracy Evaluation, oversight, and social auditing
				evaluation experiential informal	Evaluation, oversight, and social auditing Experiential and immersive education Informal conversation spaces
Type of Method 1	method types 1	Factor	Most relevant method of the project or event	informal_participati on	Informal participation
	method_types_1			internal longterm	Internal management or organization Long-term civic bodies Participant led meetings
				participantled participatory planning	Participant-led meetings Participatory arts Planning
				protest public	Protests/Public Demonstrations Public budgeting
				public_meetings research	Public meetings Research or experimental method
				collaborative community	Collaborative approaches Community development, organizing and mobilization
				deliberative direct evaluation	Deliberative and dialogic process Direct democracy Evaluation, oversight, and social auditing
				experiential informal	Experiential and immersive education Informal conversation spaces
Type of Method 2	method_types_2	Factor	Most relevant method of the project or event	informal_participati on	Informal participation
				internal longterm participantled	Internal management or organization Long-term civic bodies Participant-led meetings
				participatory planning	Participatory arts Planning
				protest public	Protests/Public Demonstrations Public budgeting
				public_meetings research collaborative	Public meetings Research or experimental method Collaborative approaches
				community deliberative	Community development, organizing and mobilization Deliberative and dialogic process
				direct evaluation	Direct democracy Evaluation, oversight, and social auditing
				experiential informal informal_participati	Experiential and immersive education Informal conversation spaces
Type of Method 3	method_types_3	Factor	Most relevant method of the project or event	on internal	Informal participation Internal management or organization
				longterm participantled	Long-term civic bodies Participant-led meetings
				participatory	Participatory arts Planning
				planning protest	Protests/Public Demonstrations
				protest public	Protests/Public Demonstrations Public budgeting Public meetings
				protest public public_meetings research	Public budgeting Public meetings Research or experimental method There is no limit to the number of people who can
